4. Installation* (Visit roppe.com for complete Installation instructions)

All Materials are to be delivered to the installation location in its original packaging with labels intact. Stack tile evenly on a smooth dry surface with each stack no more than 18” high at least 48 hours prior to installation in order to acclimate. The installation area, substrate, rubber flooring, and adhesive are to be maintained between 65° F (19°C) and 85° F (30°C) for at least 48 hours before installation, during installation and thereafter.

Adhesives

Rop 360 Acrylic Tile & Stair Tread Adhesive is a solvent free, high strength, acrylic adhesive for indoor installments over recommended & properly prepared concrete & wood subfloors only, on grade or above grade only.

Rop 435 Solvent Free Epoxy Flooring Adhesive is a solvent free, non-flammable, high performance epoxy adhesive for indoor installations over porous and non-porous substrates (excluding metal or slightly flexing substrates) on grade, below grade, or above grade.

Roppe 535U “Universal” Urethane Enhanced Epoxy Two-Part Adhesive is recommended for indoor installations over properly prepared and recommended concrete, plywood, metal and other non-porous substrates. Must be used for installations areas where the flooring will be subjected to lateral shear stresses and/or rolling loads in areas subjected to topical moisture and other liquids, and over metal and some other non-porous substrates, in addition to radiant-heat floors.

5. Maintenance* (Visit roppe.com for complete Maintenance instructions)

Please choose the correct procedure/procedures pertaining to your specific installation. Read the manufacturers recommendations, procedures and cautions before applying. Always test a small area first to ensure the desired results are achieved before proceeding. The first month after the installation of Roppe Rubber Tile should be used as a test period to assess the best procedure for continued maintenance. Insufficient cleaning and maintenance will reduce the wear life and appearance of the tile.
