## Material Safety Data Sheet

Section 9  
Resilient Flooring

To Whom It May Concern:

RE: Roppe Products: OSHA and MSDS

This letter will serve to confirm the fact that Roppe products as defined by OSHA Hazard Communication Standard 1910.1200 are considered an "Article".

An "Article" as defined by the Hazard Communications Standard section 1910.1200 (b)(6)(v) Hazard Communications standard does not apply to "Articles" as that term is defined on paragraph (C) of this section.

### 1910.1200(C) Definitions

"Article" means a manufactured item other than a fluid or particle: which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; (iii) which under normal circumstances of use does not release more than very small quantities, e.g. minute or trace amounts of a hazardous chemical (as determined under paragraph (D) of this section) and does not pose a physical hazard or health risk to employees.

Please call me if you have any further questions.

Sincerely,

ROPPE CORPORATION

Donald P. Miller

President/CEO
