

To Whom It May Concern:

The standard thickness on our Rop-Cord Tile is approximately 3/8", however, we do allow a standard tolerance of +1/8" or - 0. For a flush recess application, we recommend preparing a 7/16" recess or drop area.

Please feel free to contact our Customer Service Department if you have any further questions.

Sincerely,

ROPPE CORPORATION

Donald P. Miller  
President/CEO
